Description: A potential chemical reaction between the valve surface coating (Chromate layer) and the DOT3 brake fluid may cause a Gel to form around the normally closed (NC) valve. In some cases, it can cause the NC valve to be stuck open. The NC valve inside the ABS actuator may stick open and direct additional brake fluid flow to a reservoir inside the ABS actuator. As a result, the brake fluid pressure may fluctuate and the customer may experience increased brake pedal travel.

Customer may experience increased brake pedal travel (soft brake pedal) in the event of ABS activation. Normal braking is unaffected.

Remedy: All affected vehicles will have the brake fluid replaced (DOT3 to DOT4 fluid). Dealers will inspect the ABS actuator using Consult. If needed, the ABS actuator will be replaced. An owner s manual insert will be provided to customers with instruction to use DOT4 brake fluid to prevent the subject condition from reoccurring, and the brake fluid reservoir cap will be changed. This service, which is conducted at no charge to you for parts and labor, could take up to four and a half (4.5) hours to complete depending on the inspection results. However, your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule or if the ABS actuator requires replacement.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
